PRAVEEN JAYAKUMAR

PL/SQL Developer · Data Science Engineer · Data Analyst · Power BI Developer

☎ +91 9789915278 ✉ praveenjayakumar29@gmail.com 📍 Chennai, Tamil Nadu 🔗 LinkedIn: praveenjayakumar29

PROFESSIONAL SUMMARY

PL/SQL Developer with 2.5+ years of experience working with Oracle databases in a hospital environment, specializing in data extraction, transformation, and reporting. Skilled in SQL, PL/SQL, Power BI, and Excel for building reports, dashboards, and handling clinical and billing data. Possess foundational knowledge in Python, Machine Learning, and Generative AI, with a growing interest in Data Engineering and Analytics. Proven ability to optimize queries, improve reporting efficiency, and deliver actionable insights. Seeking opportunities as a Data Analyst, PL/SQL Developer, or entry-level Data Engineer to contribute to data-driven decision-making.

CORE TECHNICAL SKILLS

Languages	SQL · PL/SQL · Power BI
Databases	Oracle 11g/12c/19c/21c ·
ETL & Pipelines	Oracle DB · ETL Fundamentals · Data Pipeline Concepts · Data Integration Basics
Big Data	Basic understanding of data processing concepts
Data Modelling	Star Schema · Fact & Dimension Tables
Python Libraries	Python · pandas
BI & Reporting	Power BI Desktop · KPI Dashboards · Analytical Data Cubes
Tools & DevOps	Git · GitHub · VS Code · Oracle SQL Developer
Domain	Healthcare — Hospital Information Systems · Clinical Data · Billing Analytics

WORK EXPERIENCE

Software Engineer — PL/SQL Developer · Mehta Multispecialty Hospital India Pvt. Ltd., Chennai

Dec 2021 – Present (4.5 Years)

- Developed and optimized Oracle SQL/PL/SQL stored procedures, functions, triggers, and packages supporting clinical and finance reporting for a 200+ bed hospital
- Built 10+ SQL-based dashboards saving 20+ hours/month in manual reporting for finance and clinical stakeholders
- Improved query performance by 40% through index optimization and execution plan tuning; designed analytical cubes for budgeting, billing, and revenue analysis
- Built PL/SQL ETL workflows for reliable data extraction, transformation, and loading across hospital modules
- Automated DB access and audit processes reducing approval turnaround by 30%
- Performed source-to-target reconciliation and supported L2/L3 production issues within SLA timelines

■ PORTFOLIO PROJECTS — PRODUCTION ETL PIPELINES ON LIVE HOSPITALDATA

Project 1 — Surgery Patient Journey ETL Pipeline

Stack: *SQL · PL/SQL · Power BI · Excel*

- Extracted and analyzed **125,000+ surgery patient records** from Oracle database for reporting and insights
- Performed **data cleaning and transformation** on clinical datasets (handling missing values, inconsistent formats, and duplicates)
- Developed **SQL/PLSQL procedures and queries** to calculate key metrics such as Length of Stay (LOS), surgery duration, and patient demographics
- Designed and built **interactive Power BI dashboards** to track surgeon performance, patient trends, and discharge patterns
- Created **analytical reports** to support hospital decision-making and operational efficiency
- Improved query performance through optimization techniques, reducing report generation time

Project 2 — OP/IP Patient Registration ETL Pipeline

Stack: *SQL · PL/SQL · Power BI · Excel · Python*

- Processed and analyzed **900,000+ outpatient and inpatient records** from multiple Oracle schemas
- Performed **extensive data cleaning and validation** to ensure accuracy and consistency across patient datasets
- Designed and developed a **Revenue Data Cube structure** for analyzing hospital billing and financial performance
- Built **Power BI dashboards** for patient volume trends, revenue analysis, and hospital unit performance
- Conducted **data analysis** to identify key insights such as OP vs IP distribution and hospital-wise trends
- Used basic **Python (pandas)** for data preprocessing and exploratory analysis
- Automated recurring reporting tasks using SQL and Excel, improving reporting efficiency

■ EDUCATION

Degree	Institution	Year	Score
B.E Mechanical	St. Peter's College of Engineering and Technology	2016–2020	8.0 CGPA

■ CERTIFICATIONS & CONTINUOUS LEARNING

- Power BI Workshop (AI-Powered Dashboards) — Office Master, 2025
- Introduction to Prompt Engineering — Simplilearn, 2024
- Actively upskilling in: Generative AI & Advanced Power BI, Cloud Fundamentals, Advanced PySpark & dbt
